

PackshotAlto

- Made to shoot people and products up to 1m80 tall: fashion models, luggages, boots, small furniture...
- HD photos and 360-degree animations
- Ideal for photo studios, advertising agencies, marketing, communication, e-commerce...
- Large-size lightbox with a dimmable backlight on the back and the ceiling

All the advantages of a complete photo studio... in just one square meter

The PackshotAlto range can accommodate people and products up to 100 kg and a 180 cm tall.

A tailored technology

Benefit from a ready-to-use and easily adaptable photographic environment: set the level of brightness depending on the object and the desired rendering.

Indeed, the three light dimmers on the lightbox allow you to adjust the light intensity of the different light sources in the system: the four integrated symmetrical lamps as well as the backlit ceiling that covers the entire shooting zone.

360-degree animations in a few clicks!

The PackshotCreator software offers a preview of the whole process and controls the synchronization of the turntable with the camera.

The system assists you from A to Z to easily generate 360-degree interactive photos.

Publish the images on your e-commerce website, display your products in 360 degree on your iPad, iPhone, Android smartphone or tablet, create your internal image bank, print your HD pictures for your print campaigns... there are thousands of ways to use this innovative equipment.

The solution dedicated to the fashion and leather industry.

Thanks to its large lightbox, PackshotAlto XL is specially designed to create 360-degree animations of people or mannequins;

The PackshotAlto L version is the perfect solution for the luggage industry, furniture, toys or automobile components manufacturers.

The world's most widely used range of solutions for creating pictures and animations

RANGE Pro
