# Packshot*Creator* **X2**

- Made to shoot products up to 40x40x40 cm : food packagings, bags, shoes, cosmetics...

- HD photos and 360-degree animations

- Ideal for marketing, communication, archives, quality control, public relations...

- Lightbox featuring 2 shooting modes: print and web
- Lighting system featuring a constant homogeneous light and a backlight

The new version of the best-selling photo studio

Benefit from its performance and design that has already convinced 6,000 companies worldwide. Capture and animate in 360 degree all your products easily; gain in productivity with the new Dual shooting feature that allows you to switch from the "Ready to Print" mode to the "Ready to Publish" mode.

3 steps to shoot your products

- Place your product inside the lightbox; your equipment is controlled by the computer.
- Preview the shooting in real time.
- Create photos and 360-degree animations in just a few clicks.

The Dual camera mode

Through the exclusive Dual Camera mode, control simultaneously 2 cameras to gain time. This is the best mode to create multi-angle shoots.

« PackshotOneClick »

Generate multiple file formats in just one click (Jpeg, Png, Raw, Gif, Flash, HTML5).
All your photo and animation settings (resolution, rotation speed, rotation direction, can be saved for future use.

Two powerful shooting modes

The **«Ready to print »** mode is dedicated to the shooting of pictures for print: benefit from the studio-type symmetrical lighting to enhance your product's details and colors.
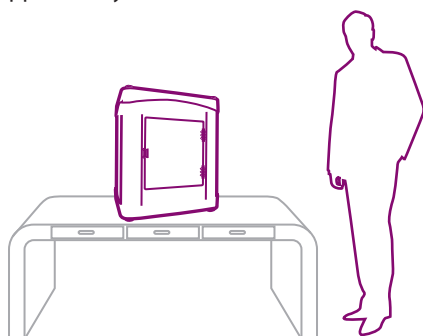

The **« Ready to publish » mode** is dedicated to the creation of animations and photos for e-commerce. Thanks to its backlight, showcase your items on a white or a transparent background.

The world's most widely used range of solutions for creating pictures and animations
